LANGUAGE SOLUTIONS FOR TEST DEVELOPERS

from Responsive Translation

PRE-TRANSLATION

Glossary and style guide design, internationalization and ambiguity check, concept analysis and more for psychometric integrity.

TRANSLATION

Translation, edit and analysis by translators and editors trained in translation for test development. ISO 9001 certified quality processes for continuous quality improvement.

ADAPTATION

Subject matter experts (SMEs) and linguists team up to adapt questions based on a transparent project-specific methodology to mitigate linguistic impact on psychometric analysis and test equivalence.

POST-TRANSLATION PRODUCTION SERVICES

Video and multimedia translation, subtitling and dubbing for testing, elearning and more. Web and print design and development. Full service.

VALIDATION

Subject matter expert review and validation, user and in-country review, linguistic validation using back translation and SME editing validation workflows.

EXPERIENCE AND QUALIFICATIONS

More than two decades translating and adapting test and assessment content for the global test development community. Ranked first for client satisfaction among language service providers. Woman-owned business status helps win more contracts.
